CYBERVISION IS A
 BROAD SPECTRUM
 ORGANIZATION
 INVOLVED IN
 CREATING WORLD
 CLASS SOFTWARE AND
 IT PRODUCTS

1.7 SOFTWARE PROJECTS

NADRA VERYSIS BILLING APPLICATION

CyberVision has developed an online accounting solution for NADRA; the leading ID card company of the world. The application consists of billing, customer relationship management and agreement management modules of the Verisys product.

University Management System:

Cybervision has developed Management Information System for Universities. These automation projects includes: Buhauddin Zakariya University, Karakorum International University, Lasbela University of Water and Marine Sciences, Sardar Bahadur Khan Women University, Quetta.

Johns Hopkins University Communication Portal

CyberVision has developed an online dynamic communication portal for the Johns Hopkins University funded by the Packard Foundation for the Health Communication Network members all across the globe.

Roots School Systems Automation

RSS consists of 42 school branches in Pakistan. CyberVision has deployed Accounts Information Management System (AIMS), Salary Management and

Log of Employees (SMILE), Asset & Inventory Management Software along with Job and Alumni Web Portals for Roots School Systems.

International Labor Organization (United Nations) DBMR

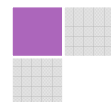

CyberVision has developed and maintaining the Database of monitoring and reporting for the Time bound project initiated by International Labor Organization. The Management Information System is implemented in six different districts and contains a large database of students which are being educated by ILO.

President's Official Earthquake Sponsorship Portal

CyberVision International developed President's official earthquake relief sponsorship Web Application in collaboration with Pakistan Space & Upper Atmosphere Research Commission (SUPARCO) and National Database and Registration Authority (NADRA). This web application is integrated with NADRA's database of earthquake victims and contains GIS based satellite imagery of the earthquake affected areas.

Hashoo Foundation

CyberVision is working with Hashoo Foundation for the implementation of the Management Information System.

Following modules has been deployed at Hashoo Foundation: Account Management System, HRM, Transport Management System, and Skill Development Management System,

Skill Development Council:

Office Automation System for Skill Development Council has been developed by Cybervision.

USAID DTW Official Website and Web Application

CyberVision International is working with USAID for the development of their official website of the Districts that Work program. This website will be integrated with various online forms for the data entry procedures.

1.8 IT PRODUCTS

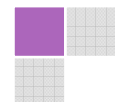

Accounts Information Management System

If you're wondering what AIMS can do for your business, consider this: comprehensive and flexible accounting solution, quick setup, ease of use and Decision Support Reporting (DSR). Your AIMS provides access to vital fiscal information and maintains & records accounting transactions in efficient and parturient approach.

AIMS Features

- Ease to use by one click access to essential data and user friendly interfaces.
- Double entry accounting system along with fiscal year periods' declaration.
- Chart of Accounts, Opening Balances, Parties and Locations Management.
- Basic voucher entry system with classification of posted and un-posted entries.
- General and Party Ledger, Trail Balances, Balance Sheet, Income Statement Management.

**TAKE CONTROL
OF YOUR
BUSINESS WITH
AIMS...**

- Advances, Petty Cash, Expenses Management.
- Simple system backup and user's roles and rights management.

Salary Management and Information Log of Employees

SMILE serves as a single system for recording and updating personnel information, so you can align your workforce with strategic objectives. Also captures employee and departmental data across application, such as your payroll, leave record management and others. SMILE provides an up-to-the-instant accurate view of human resources-related records, including personal profile, performance management, compensation, benefits, payroll, time management, and comprehensive and visually appealing analytical reports.

Benefits of SMILE:

- Stores complete electronic employee profiles.
- Streamlining HR process, including promotion, transfer, leaves and sabbaticals.
- Offers flexible organizational structure management.
- Provides standard interfaces to major modules of application.
- Accelerates HR processes through automated workflows.
- Facilitates allowances and deductions management.
- Monthly Leave record and Overtime management.
- Delivers accurate & in timely fashion DSR to support strategic planning.
- Monitors application usage through logs for improved security.

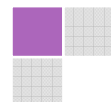

*Let SMILE
